

# CARDIAC SCREENING

Screens will involve stethoscopic auscultation by the veterinarian.

OFA forms will be available for certification:

Dogs under 12 months of age can be temporarily registered in the OFA data bank for a fee of \$10 (half price would be \$5)

Dogs over 12 months that are found to be normal can be registered with OFA for a fee of \$15 (price will be reduced to \$7.50 with sticker)

OFA cardiac certification will indicate the age at evaluation. It will also include OFA certification indicating who performed the evaluation: Cardiologist, Internist, or General Practitioner. This year, the tests will be performed by a General Practitioner.

Dogs that are found to have congenital heart disease can be registered with OFA at no charge

Dogs that are found to be abnormal by auscultation can be referred for follow-up to a facility that offers echocardiography, Doppler cardiac ultrasound, etc. to complete a specific diagnosis (between innocent murmurs and potentially serious hereditary heart diseases).

**Dr. Dawn Bromley, Veterinary Clinic, Preemption, Illinois will be doing the screening:**

**NAME** .....

**ADDRESS** .....

**CITY, STATE, ZIP** .....
